PROFESSIONAL SUMMARY

Full Stack Developer and Founder of DeepCipher Studio with hands-on experience building production-grade web applications, business platforms, and scalable digital products. Proficient in Next.js, React.js, Node.js, Tailwind CSS, REST APIs, and modern frontend architectures. Proven track record delivering responsive, SEO-optimized, and performance-focused solutions across fitness, real estate, education, and local business domains. Strong academic foundation in AI & Machine Learning with practical experience in OpenAI API integrations and LLM-powered applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL, Python

Frontend: React.js, Next.js (v13/14/15), Tailwind CSS, SCSS, Framer Motion, GSAP, Three.js

Backend: Node.js, Express.js, REST APIs, FastAPI, Middleware Development, API Integration

Databases: MongoDB, SQL (Relational DBs), Database Design & Query Optimization

AI & Automation: OpenAI API, Prompt Engineering, LLM Application Development, AI Integrations

Tools & Platforms: Git, GitHub, Vercel, Postman, Jupyter Notebook, VS Code

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

EXPERIENCE

Founder & Full Stack Developer

Jan 2025 – Present

DeepCipher Studio — Web Design & Development Agency

deepcipher-studio.vercel.app

- Founded and operate DeepCipher Studio, a premium web development agency delivering high-performance websites and digital products for businesses in Karnataka.
- Built and shipped 3+ client projects end-to-end using Next.js, React.js, Tailwind CSS, Framer Motion, GSAP, and Node.js — including platforms for Khan's Fitness, Shingri Developers, and Bipin Chikkatti Institution.
- Developed 20+ reusable UI components, reducing development time across projects and ensuring design consistency.
- Managed complete project lifecycle: requirements gathering, architecture planning, development, Vercel deployment, and post-launch maintenance.
- Implemented SEO best practices, responsive design, and Core Web Vitals optimizations achieving strong Lighthouse performance scores.

Full Stack Developer Intern

Feb 2023 – Jun 2023

Government Tool Room & Training Centre (GTTC)

Hubli, Karnataka

- Developed responsive web application interfaces, improving frontend usability and cross-device performance.
- Designed and implemented RESTful APIs enabling efficient and structured client-server communication.
- Optimized SQL queries and normalized database structures, improving data retrieval performance by over 30%.
- Performed API testing, debugging, and validation using Postman; collaborated via Git version control workflows.

PROJECTS

DeepCipher Studio Platform | Next.js, Tailwind CSS, Framer Motion, GSAP

deepcipher-studio.vercel.app

- Designed and developed a premium agency website focused on client acquisition, brand positioning, and conversion optimization.
- Built scalable component architecture with advanced motion design using GSAP ScrollTrigger and Framer Motion animations.
- Optimized Core Web Vitals, SEO metadata, and responsive layout across all device breakpoints.

Gadag Info — Bilingual Heritage Platform | React.js, Tailwind CSS, i18n

gadag.vercel.app

- Built a bilingual (Kannada + English) cultural information platform for a community with 114K+ Instagram followers.
- Developed scalable frontend architecture with reusable components, improved navigation UX, and enhanced accessibility across content-rich pages.

Khan's Fitness — Gym & Fitness Platform | *Next.js, Tailwind CSS, Framer Motion, GSAP*khans-fitness.vercel.app

- Built a full-featured fitness business website including membership tiers, trainer profiles, transformation showcases, and a lead generation contact workflow.
- Implemented a brutalist dark UI aesthetic with high-performance animations and fully responsive mobile-first layout.
- Delivered production deployment on Vercel with optimized asset loading and page performance.

Shingri Developers — Real Estate Website | *Next.js, Tailwind CSS, Framer Motion*shingri-developers.vercel.app

- Developed a modern real estate platform featuring responsive property showcases and smooth interactive user experiences.
- Built reusable UI components and optimized frontend rendering performance for fast page loads.

EDUCATION

Nitte Meenakshi Institute of Technology (NMIT)

Bengaluru, Karnataka

Bachelor of Engineering — Artificial Intelligence & Machine Learning

2023 – 2026

- CGPA: 6.50 — Co-authored IEEE paper on LSTM-based Residential Energy Consumption Prediction.

Government Polytechnic, Gadag

Gadag, Karnataka

Diploma in Computer Science & Engineering

2020 – 2023

- CGPA: 8.59 — First Class with Distinction.

CERTIFICATIONS

Python Programming — Udemy | **Database Management Systems** — Infosys Springboard |
Introduction to Machine Learning — Great Learning
